

stop the rot

This five year old has been in agony for months...

...don't let it happen to your children. Go to...

www.stop-the-rot.co.uk

**...and find a tooth friendly pre school
nursery in your area.**

'It is a real tragedy that nearly half the infants in this country could suffer severe pain from tooth decay before they even get to primary school.'

All tooth decay can be prevented by following the simple advice given on this website.

We fully endorse the "Stop The Rot" campaign and we hope that all parents and nurseries will too.'

Professor Robert the Lord Winston, Imperial College, London and Professor Dame Nancy Rothwell, University of Manchester
